## VITREOUS CHINA or CAST-IRON

AS LOW AS  
**\$39.<sup>50</sup>**  
IN WHITE

Any of these lavatories go with  
and COLOR-MATCH any  
Nationaline toilet or bathtub.

ALL NATIONALINE LAVATORIES conform to and even exceed both Commercial and Federal Standards of Quality. Unlike other makes, Nationaline cast-iron lavatories are resistant to acids and stains. Vitreous china units are acid-proof and will not craze or permanently stain. Both enameled cast-iron and vitreous china fixtures are perfectly color matched for intermixing. Many types and sizes.

**A. EXTREMELY POPULAR 20" x 17" ACID-PROOF VITREOUS CHINA LAVATORY** Has: anti-splash bowl, concealed overflow, 2-soap recesses and shelf-back. Complete with modern centerset faucet, aerator, P. O. plug, chain and stopper. Ask to see . . . . .MODEL S1-N-2017C

Built-In, Trouble-Free Features With  
**LIFETIME  
 GUARANTEE**

**FOUND ONLY IN**

**DON'T SETTLE FOR LESS!  
 COME IN AND SEE**

... the Nationaline trouble-free toilet tank. The integral ceramic parts are Guaranteed for a Lifetime, eliminating the need for metal parts which easily corrode and are so costly to maintain and replace. The three improved ceramic parts are (1) the overflow, (2) the ground-in valve seat, and (3) the rod guide bracket. Instead of the troublesome lift wire, (A) a flexible chain and (B) a longer sleeve on the rod guide assure drop-true seating every time.

**ALL U.S. GOVERNMENT AND COMMERCIAL

WHEREVER YOU MAY LIVE...A

# Nationaline WATER SOFTENER

## CAN SAVE YOU MONEY!

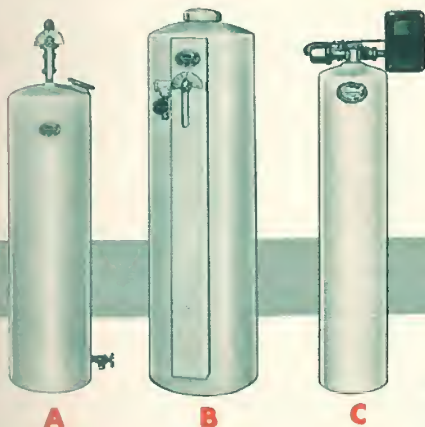

**AUTOMATIC WATER SOFTENER WITH BRINE TANK** — a corrosion-free and leak-free heavy-duty unit, holds 200-lbs. of dry salt, serving an average family up to 6 months between fillings. With versatile automatic operation, it gives all the soft water your family can use all the time. Services itself while you sleep — no buttons to push — no levers to turn! The automatic electric timer can be set for regeneration intervals from 1 to 7 days (preferably to occur at 2 A.M. while family sleeps) to match water hardness and family requirements. 10-year Warranty. Appliance finish.  
**MODEL S1-AU-150 with 105,000 Weekly Grain Capacity**  
 Larger Sizes also Available.

**\$212<sup>50</sup>**

### GROWING FAMILIES

It is wise economy to buy a larger size water softener now, to serve your needs of the future.

**A**

**B**

**C**

**A ECONOMY MODEL** super versatile mineral softens—removes dissolved iron and sediment. A few easy turns of the simple valve control, and regeneration is complete! 5-year Warranty. Automatic timer is available at extra cost.  
**PRICED FROM \$83<sup>50</sup>**

**B DELUXE SEMI-AUTOMATIC SOFTENER** with timer and single control valve returns softener to service when regeneration is completed. High capacity mineral softens and removes dissolved iron and sediment. 10-year Warranty.  
**PRICED FROM \$134<sup>50</sup>**

**C AUTOMATIC IRON FILTER** gives all the iron-free water you can use. All iron stains and tastes removed. The interval timer thinks for itself and regenerates unit to fit your needs. 10-year Warranty. Manual Valve Iron Filter also available.  
**MODEL S1-AUR-12 \$223<sup>50</sup>**

### FREE WATER TEST FOR HARDNESS

Bring in a sample of the water you use in your home. (We'll even furnish the bottle.) Our experts will give you a free chemical analysis to accurately determine the exact size and type of softener unit you require. Proper conditioning of your water supply dissolves hard work and saves you money; cuts plumbing and fuel bills, keeps pipes clean; makes washing easier, adds years to fabric life, uses less soap; keeps complexions smooth and hands soft; hair retains luster, permanents take better, last longer; vegetables cook tender with more flavor; cuts grease faster; dishes sparkle, floors and walls wash quick and easy.

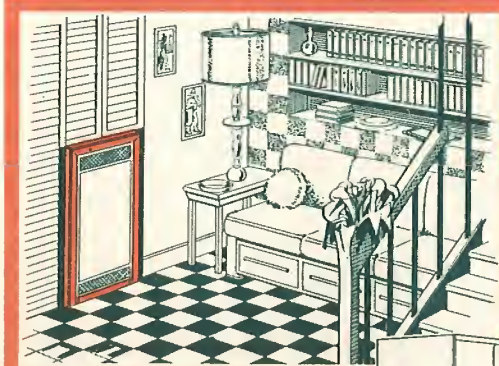

# Now! DECORATOR STYLED ... CONSOLE BOILERS FOR *Gas* ... FOR *Oil*

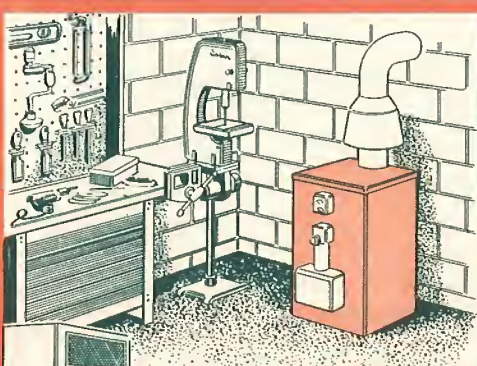

AS SMALL AS  
33" HIGH, 18" WIDE, 24" DEEP ...

the new fashionable series of functionally outstanding Nationaline Heat-King Boilers offer unlimited "built-in" possibilities. The removable front is styled with a center panel of gray patterned plastic, laminated on aluminum, and framed in chrome. Has gold metallic see-through grilles. The boiler itself is a brush gold color. Designed for today's "more livable homes," these square boilers allow more space for other purposes.

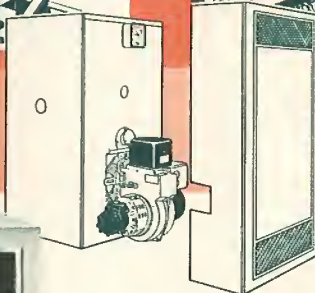

This compact boiler can perform as the "heart" of a modern hydronic heating system that gives radiant warmth like that of the sun. Your home can have both heating and cooling comfort and be inexpensively zoned for area by area or room by room temperature control, resulting in fuel economy. Radiant snow melting panels can be installed to eliminate harmful physical exertion. This modern heating system is recognized everywhere as a good investment, commanding a high market value for your home.

NEW BOILERS BLEND HANDSOMELY  
IN RECREATION ROOM SETTINGS

OLD BOILER AND FURNACE ROOMS  
CAN NOW DOUBLE AS HOBBY AREAS

BOILER AVAILABLE  
WITH OR WITHOUT  
JACKET EXTENSION

Oil and gas-fired models both carry a 10-year guarantee, are identical in principle, differing only in size, capacity and burner. All boilers are completely wired and assembled in the factory, complete with name brand controls and components, ready to connect to your radiation system. Let our hydronic specialists give you a free estimate on the size and optional equipment which will fit your budget, your home, and your convenience. Both gas-fired and oil-fired models are made in 3 sizes, only 33", 35", or 39" high. Gas models measure 18" wide, 24" deep, including front jacket extension ... Oil units measure 18" wide, 27 1/2" deep with jacket extension. Oil-fired boilers can easily be converted to gas. Gas models are A.G.A. approved and are available in 80,000 to 130,000 BTU. Oil models are available with 58,000 to 98,000 BTU.

FOR RAMBLING RANCH... FOR SPLIT LEVEL... FOR FUTURE ADDITIONS  
FOR ANY STYLE HOME... YOU'LL FIND

# HYDRONIC HEAT *is Best*

A RING OF RADIANT WARMTH surrounds the hydronically heated home... baseboard heat units are placed along the cold outer walls and under windows where the greatest heat losses in a house occur. Here they warm the walls and prevent downdrafts, allowing for freedom of home design and decoration. Upright radiators do not interfere with wall to wall floor covering and furniture arrangement. Long used in hospitals, radiant heat is now considered best for family health... hot water heat does not over-dry the air, or send noisy blasts of air about the house, spreading dust, bacteria, odors, and allergy producing pollens.

There are no rapid fluctuations in room temperature... a zoned system enables you to keep the living area and nursery warmer than the bedrooms, or the wing exposed to cold north winds can be zoned to receive extra heat... no fuel is wasted in supplying more heat than is needed. You can enjoy all the benefits at once or add them as your budget permits. The system can be expanded if home additions are to be added. A properly selected heating system is a big factor in making your home measure up to the standards of a good investment. Hydronic heat assures ample dividends in comfort, charm, and beauty. What a difference... and worth it!

## ← HEAT KING *Gas-Fired* BOILER

The extra high efficiency of this hydronic boiler pays for itself with low operation, comfort and convenience dividends... no noisy blasts of hot air, but even, clean heat. Boiler has a 10-year guarantee. An optional hot water coil permits year-round use of boiler to supply hot faucet water for every household use. Sizes to meet heating requirements from 90,000 to 200,000 BTU.

# ... and those who know, specify BASEBOARD HEATING

**A TYPICAL  
HYDRONIC  
HEATING  
SYSTEM**

The baseboard units literally surround the house with warmth.

For use with Nationaline Heat King Boilers, these metal baseboard units are the most versatile heaters you can buy for new or remodeling purposes. They take up little more than the space normally occupied by regular baseboard, and eliminate unsightly, upright radiators that hinder furniture arrangement. Basic heating element units can be combined with accessories to custom fit any room and meet any special heating requirements.

Packaged in Complete 8 Ft. Sections ..... per lineal ft. .... **\$1.87**

Accessories available for custom installations.

## MODERN EXPANSION TANK

For Hydronic Heat Systems — A pressurized, diaphragm-type chamber for water expansion control in new or existing hot water heating systems. In two sizes: Model 15 for systems where total water volume is 25-gallons or less, and Model 30 for systems that contain 50-gallons or less. For volume in excess of 50-gallons, use either model in multiple.

## Heating and Cooling Radiator

### MAKES AIR CONDITIONING POSSIBLE THROUGH HYDRONIC HEATING SYSTEM

When these wall insert radiators are installed with your Hydronic Heating System — a full air conditioning system can be had in summer by adding only a central chilling unit. Thus you have zoned cooling, through the same piping used for zoned heating. A manual rheostat controls comfort in every room or, if you wish, a thermostat controls temperature automatically. Units are sized to fit between standard studs — no carpentry required. You can enjoy all these benefits at once or add them as your budget permits.

**\$67.50**

## ATOMIZING FURNACE HUMIDIFIER

Introduces water vapor into the air from all types of warm air furnaces. Can be easily and quickly installed on vertical surfaces of plenum, or duct of counterflow furnace. No jets, no nozzles — completely service free. An aid to comfort and health.

S1-65 ..... **\$23<sup>50</sup>**

## AUTOMATIC FURNACE HUMIDIFIER

A fully automatic unit for healthier, more comfortable living. Fits into plenum of your furnace. Have us install it, or do it yourself. Furnace heat determines rate of operation.

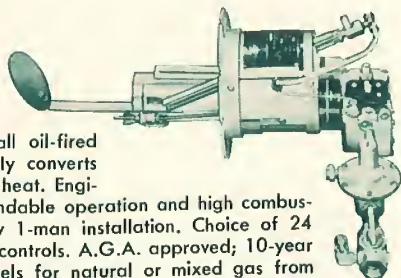

S1-60A200 ..... **\$11<sup>75</sup>**

## ADJUSTABLE VENTURI CONVERSION BURNER

Adjusts to fit nearly all oil-fired furnaces — economically converts them to automatic gas heat. Engineered for safe, dependable operation and high combustion efficiency. Speedy 1-man installation. Choice of 24 volt or self-generating controls. A.G.A. approved; 10-year factory warranty; models for natural or mixed gas.

PRICED FROM ..... **\$87<sup>50</sup>**

Special Models for LP gas.

## OIL FIRED

## CONVERSION BURNER

Converts your coal-fired boiler or furnace into an efficient oil-fired heating plant. Operates on high or low grade fuels. Rugged, compact unit with pedestal base. Complete with limit control, relay and thermostat, in .75 to 1.65 GPH size.

S1-SR-S-1 ..... **\$143<sup>50</sup>**

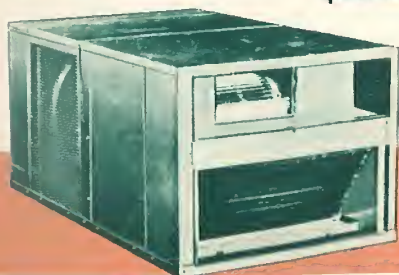

## GAS or OIL-FIRED HORIZONTAL FURNACE

Compact in design, yet it heats, filters, and circulates air the same as larger central heating plants. Hang from the ceiling in your basement, utility room, or place it in the attic. Comes in completely automatic gas-fired models, approved by A.G.A., from 80,000 to 140,000 BTU/Hr. input. Oil-fired models are approved by Underwriters Laboratories and are available in 105,000 to 312,500 BTU sizes.

PRICED FROM ..... **\$244<sup>50</sup>**

ALL PRICES IN THIS PLANALOG WERE CURRENT AT THE TIME OF PUBLICATION — THEY ARE SUBJECT TO CHANGE IF CONDITIONS WARRANT

## HEAT & COOLING PUMP FOR YEAR-ROUND COMFORT

During warm weather, heat is transferred to the outdoors and dehumidified cool air is circulated indoors for ideal living comfort. With the first fall temperature drop, the refrigerant cycle is reversed. Heat is extracted from the outside air to warm the indoors. Meets F.H.A. requirements. Weatherproof cabinet for wall-type or any limited access installation. Complete with room thermostat. 1-year compressor warranty. 20,000 to 56,000 BTU/Hr. Sizes.

PRICED FROM ..... **\$472<sup>50</sup>**

WE HAVE FURNACE OR  
AIR CONDITIONING  
FILTERS . . . ANY SIZE  
TO FIT YOUR NEEDS!

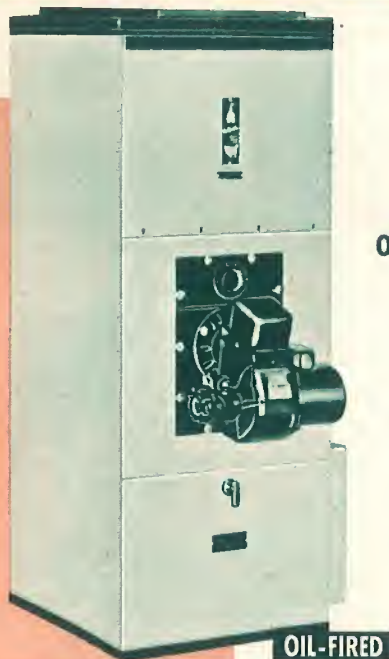

## CEILING HEATER

Ceiling mounted space heater which circulates warm air thoroughly in garages, store room, shops and other large areas. Louvers control air flow direction. Models from 25,000 to 500,000 BTU/Hr.

PRICED FROM ..... **\$184<sup>50</sup>**

## BASEBOARD *Radiant* HEAT

*Designed for Modern Living*

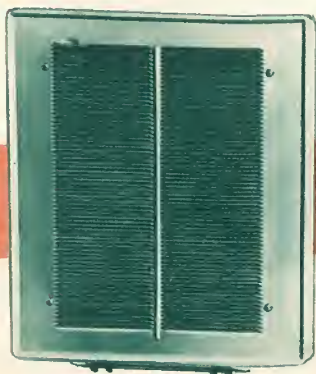

Enjoy the healthful comfort, convenience and beauty of this classically-slim 6-in. high baseboard radiant heat system next winter. Install it now! Temperatures can be economically controlled by zone thermostats. The enclosed safety grid element has a 5-year guarantee and is positively safe. No flame, no open wires, or glowing coils. Protects against fire, shock, or burns. An optional safety switch cuts off heat if normal operation is hindered. Customized fittings give a flowing appearance by either blending or contrasting baseboard-wall tones. Finished in golden bronze — can be painted to match your decor. Units available with wattage required to heat your home.

Complete accessories available to custom-fit any room.

32" to 96" units available.

PRICED FROM .....

**\$20<sup>95</sup>**

### BUILT-IN AUTOMATIC FORCED AIR ROOM HEATER

Gives abundant, gentle, clean warmth for any room. Just right for recreation rooms, added-on rooms, small apartments, laundry, workshop, garage, cabin or motel unit. A completely automatic thermostat maintains temperature at the comfort level you select. This is a heavy duty hydraulic action thermostat, activated by room temperature only, and not by the heater itself. A fan delay switch prevents cold drafts from circulating until the element has accumulated sufficient heat to warm the room. No need to worry about open coils and glowing elements . . . the safety seal on the cast-aluminum heating element gives complete protection and element has 5-year guarantee. Sizes for areas requiring from 1,500 to 4,000 Watts. In Bronze-gold finish.

PRICED FROM .....

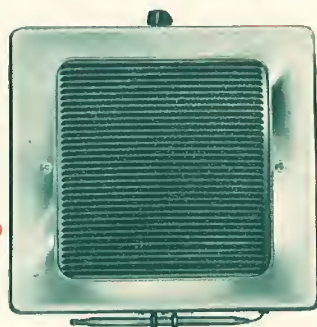

**\$75<sup>50</sup>**

### AUTOMATIC FORCED AIR ELECTRIC WALL HEATER

Ideal for drying hair or lingerie, for quick heat anytime. Keep your bathroom, nursery or other small room at a constant temperature anywhere within the adjustable range from 55° to 85° F. Just set the dial and the thermostat goes to work. A sealed-in cast aluminum heating element gives positive safety against fire, shock or burns, and has a 5-year guarantee. White enamel or gleaming chrome finish in 1,320 watt models.

PRICED FROM .....

**\$38<sup>90</sup>**

### HEAT-A-VENTLITE

A circulating fan, an exhaust fan, a ceiling heater and light, all in one! Fan works independently. 1475 or 1800 Watt size.

**THE MONEY YOU INVEST IN YOUR HOME CAN DOUBLE ITS VALUE AND BETTER YOUR LIVING!**

**THE LONGER YOU PUT OFF NEEDED REPAIRS, THE MORE EXPENSIVE THEY BECOME!**

**BUY NOW AND SAVE!**

**FINANCIAL AGENCIES ARE ANXIOUS TO MAKE HOME IMPROVEMENT LOANS!**

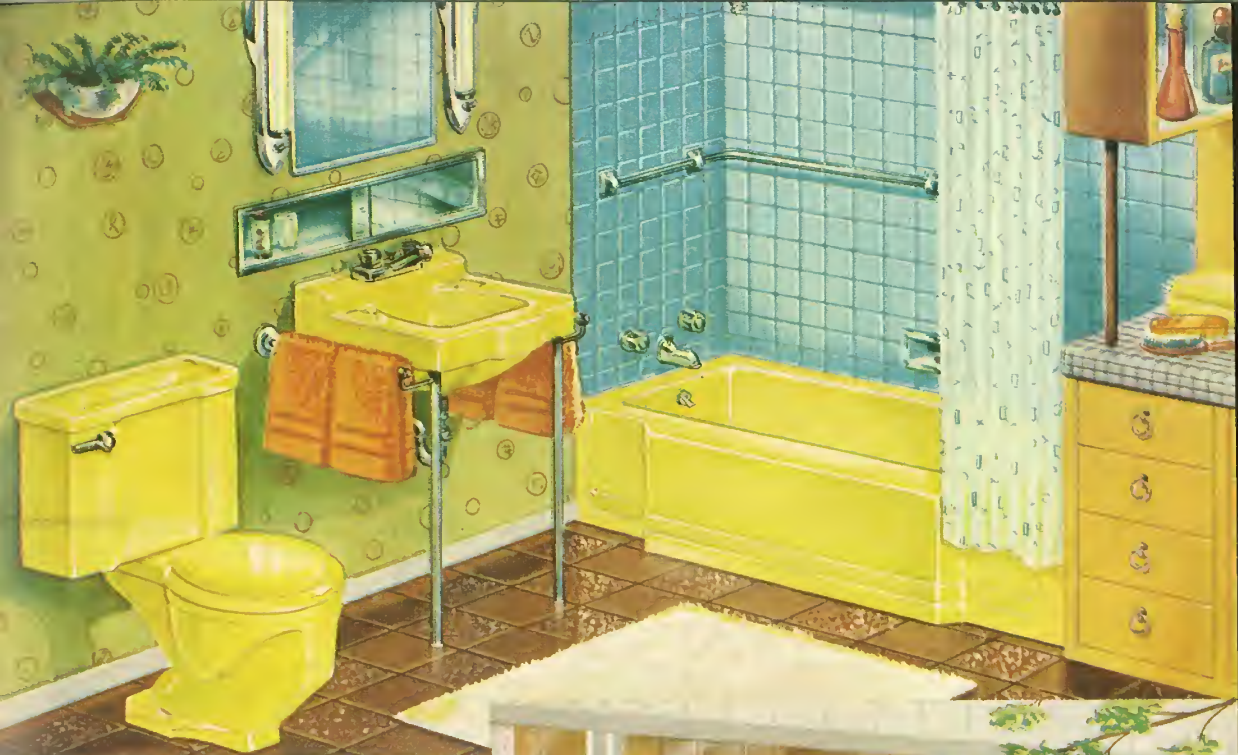

Don't let ready-cash limitations keep you from enjoying the plumbing, heating and air conditioning improvements you desire, or the repairs you need. Banks, savings and loan associations, credit unions, and similar lending agencies actually encourage home improvement loans.

The small amount you spend for a loan will be returned to you many times over if you should sell your home. Unlike automobiles and similar purchases which depreciate so rapidly, home modernization expenditures become assets by increasing the overall value of the property. No matter how you finance home improvements, remember, the quicker you repay your loan, the less it costs you.

### ALWAYS SEE US FIRST

As recognized by contractors, we are familiar with lending institutions in this area. We can tell you whether, or not, your proposed improvement is eligible for F.H.A. insured financing. Let us save you time by giving you the estimate of materials only, or materials and labor, etc., you will need when you apply for a home improvement loan.

# New Look FOR YOUR HOME

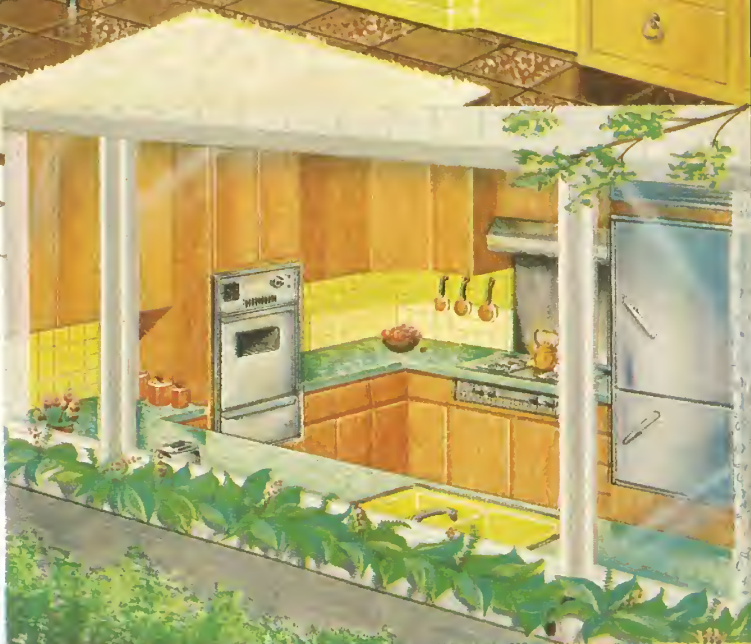

No matter how limited or extensive your budget . . . whatever the size or shape of your kitchen or bathroom, we can help you accomplish the beauty and convenience you want, along with easy financing.

We can also help you give your home a new look in easy stages. For example: you can begin your new kitchen with a cooking center or starter group similar to the ones suggested on pages 18 and 19 . . . and as your budget permits . . . keep adding cabinet units until your dream kitchen is completed.

Bathrooms, too, can be planned in a series of logical stages to suit the pocketbook.

Let our years of experience aid you in your planning.
